

NEW MACHINING CAPABILITIES ANNOUNCEMENT

# YOU JI Large Capacity Vertical Turning Center with Live Tooling

We recently acquired a **YOU JI Large Capacity Vertical Turning Center with Live Tooling** with a maximum work turning diameter and work length of 70" X 47" for complex turning and machining solutions.

The **YOU JI VTC** assists in the design and manufacture of Custom Tooling Solutions including Machined Components, Special Machines, Jigs & Fixtures, Dies, Gages and Composite Molds. Additionally, the live spindle enables high torque output for face milling, end milling, drilling and tapping capabilities.
